Life becomes fascinating, meaningful, playful, deep and full of synchronicities and joy.

"IT IS BETTER TO DO YOUR OWN DHARMA EVEN IMPERFECTLY, THAN SOMEONE ELSE'S DHARMA PERFECTLY."

- BHAGAVAD GITA

You don't need to be loud or flashy - you just need to be YOU. You're being called to rediscover your own dharma, your unique soul purpose, and live it.

SPIRITUAL
LIFE COACH

WHAT IS SPIRITUAL LIFE COACHING?

Life Coaching is one of the most exciting industries to be in right now. More than ever, people want someone who 'gets' them and can support them personally.

While coaching has recently become a huge new business and may seem like strange new territory, in many ways, life-coaching is nothing new. We humans have always sought mentors and teachers to support us along our journey, to give guidance through the complex and strange challenges of life. In the past it was the wise elder, shaman, sage, priest, father, mother, or trusted friend who we'd seek help from.

But in our isolated, high-paced, toxic modern world, most people feel deeply confused, alone and without real support. Many people don't feel they can share what's really going on in their hearts - even with their friends or family - for fear of being seen as weird or different. So they suffer in silence. **That's where you come in.**

You give them an opportunity to receive your loving support and skilled mentoring, to be deeply heard, valued and shown a way out of a challenging situation into their life of freedom.

CAN I MAKE MONEY DOING COACHING?

Yes! With the increasing demands of work, fast-paced lifestyle and responsibilities, people are more out of balance than ever before, giving rise to a high demand for a wide array of personal and professional coaching.

The International Coaching Federation (ICF) provides an annual report on the coaching industry and gives statistics on industry growth.

According to the ICF:

Full-time coaches earn an average of \$82,671 per year, and part-time coaches earn an average of \$26,150 per year. Full and part-time coaches earn an average of \$50,510 per year.

- Worldwide, six in 10 coaches showed an increase in clients at the rate of \$200 - \$500/hr
- Most coaches predict a further increase in fees, clients, hours and revenue in the next year.

There is Great Opportunity for Freedom, Wealth & Success Right Now - Especially for Spiritually-Minded, Empathic People

IS SPIRITUAL LIFE COACHING FOR YOU?

Would you love to help people experience transformation in their lives?
Would you love to work from anywhere?
Would you love to have a handful of high paying clients, which means you can work part-time and have the money you need?

If you said YES - to these questions - then Spiritual Life Coaching could be perfect for you!

Why Spiritual Life Coaching?

Many of our students tell us that people kept coming up to them for support and advice. And after a while, they realized they could make a living from this.

Coaching is now more than a \$1 billion industry in the U.S. alone and as a Spiritual Life Coach, you can stand out from the crowd and help your clients on a deeper level.

As a coach, you can connect with people on the phone, Zoom or in-person - whichever works best for you.
What's amazing about coaching is you can do it from the comfort of your own home, or travel the world - and get paid!

BECOME A SPIRITUAL LIFE COACH

Coaching is an industry in the fast-lane for growth and profitability.

CHECK OUT THESE STATS:

- The coaching industry is expected to reach a value of \$20B by 2024
- 99% of individuals and companies coached are satisfied or very satisfied
- Business coaching within the U.S. is worth over \$14.2B
- 65% of practitioners identified “business coaching” as their main area
- Life coaching is a \$1.4 billion industry
- There are an estimated 93,000 certified coach practitioners worldwide

Is the coaching industry market growing in 2023-24?

YES! In 2020, the market size of online coaching platforms was nearly \$2 billion. By 2028, this market size is projected to increase to \$4.5 billion. This is based on a CAGR of an impressive 13.03% from the forecast period of 2021 to 2028.

Research shows that professional coaching provides a significant return on investment (ROI), so more and more people are looking for guidance. Every month, there are over 1.5 million internet searches made by those looking for life, business, and executive coaching. Coaching is growing in popularity because both individuals and companies see the profound benefits it provides. According to IPEC, a global coaching institute, 99% of those coached were “satisfied or very satisfied” and 96% said “they’d repeat the process.”

We believe that **you** have the intuitive skills and abilities to truly help people. We think that **you are the future of coaching.**

THRIVE IN UNCERTAIN TIMES

Stay Open For Business And Take Your Finances Into Your Own Hands

Since the pandemic began, many traditional businesses have been disrupted, and almost everyone is working virtually. Even now more and more people prefer to work online and receive help virtually.

This is a huge advantage for spiritual coaches, authors and teachers. As more and more people seek help online, coaches have actually seen a rise in clients and income since the pandemic.

You can strategically align your life and work with what people are seeking – and create a thriving, relevant business in a world that needs you. By setting up your own high value online business, you are investing in your success, safeguarding your future and putting your wealth into your own hands.

Imagine this...

The world outside is crazy. But you are able to serve people all over the world from the comfort of your home, sharing your wisdom, guidance and knowledge. You can touch hearts and make sales without even leaving your house. You can make a positive loving impact on real people thousands of miles away, even while you sleep. And even if there is another virus, or problem, you have a way to reach millions of people online through your spiritually-based online business.

WHY SPIRITUAL COACHING?

More than ever, souls are needing deep support and traditional personal coaching does not always work.

In Awakened Academy, we teach you how to help souls on a deep level, the level of the soul.

You'll learn how to get to the root causes of problems with your clients, and how to guide your clients into deeper experiences of peace and awareness.

Spiritual coaching is at the leading edge of coaching today, and even if you specialize in another type of coaching, such as health coaching, you will find that incorporating spiritual coaching into your practice makes all the difference.

In our experience, spiritually-based coaching is essential. Otherwise, how can we truly help someone? If we are seeing our client in the limited way that everyone else sees him/her, how is that helping?

When we begin to understand ourselves as being of a spiritual nature, and our clients as well, the door to true transformation opens.

AUTHENTIC

SPIRITUAL LIFE COACH

CERTIFICATION

The truth is: other spiritual coaching certifications are often not spiritual in nature.

We have many students who found our Certification after having researched or taken other courses, and they tell us that other courses lack the spiritual foundation Awakened Academy has.

We think what sets us apart is that we created the entire Course from a deep spiritual basis.

As internationally renowned meditation teachers with decades of practice, spirituality is our foundation, and it is woven into everything we share. Because of this, Awakened Academy is also a deep self-healing and spiritual journey in itself.

As one of our students shares, “I appreciate how Awakened Academy is more than just a coaching business course, it’s a Self-Healing Journey. I’m in the coaching section now... and I keep saying: This is the best gift I ever gave to myself.”

BECOME A
BEST-SELLING
AUTHOR

BECOME AN AWAKENED BEST-SELLING AUTHOR

We believe you have a book (or several) inside of you. When you have the knowledge to write, publish and sell your own book, you can become a #1 best-seller in your category, touch thousands of lives and make a great income doing so.

According to the Author Earning February 2016 reports: **\$140 million a year** in Amazon Kindle Payments **is going directly to authors.**

The author earnings report shares, "With lower prices, greater creative freedoms, the ability to publish to market much faster, and the ability to appeal to a wider variety of readers, **indie (self-published) authors have huge advantages online.** As the market moves away from physical bookstores — which must necessarily limit their selection, and so limit the free expression of ideas as a consequence — we expect to see a greater **flourishing of independent authors finding their voices and taking home an ever-growing slice of consumer dollars.**"

In Awakened Academy we teach you how to get your book done and published - successfully. You'll learn how indie authors are creating a full-time income writing and self-publishing their great books - and how you can to. We also provide you with information on how to submit your book to a publishing company.

CREATE YOUR OWN COURSES

So you can get paid while you sleep
and enjoy multiple streams of income

CREATE YOUR OWN COURSES & PROGRAMS

We believe you have several courses inside of you - waiting to be shared. You have gained knowledge, experience and wisdom on your journey through life. When you have the skills and guidance to bring your knowledge into a digital course format, you can start helping people all over the world, and making great money - even while you sleep.

The worldwide e-learning and online courses market was estimated to be worth **\$341.7 billion** for the year in 2015. **That was the sixth year in a row** that U.S. e-commerce sales have **grown near or above 15%**.

In addition to the booming coaching industry, the online learning market is growing at a rapid rate. People are catching on to the ease of learning online, from anywhere in the world.

Creating and sharing online courses grants you the freedom to be transforming lives and earning an income, without you personally being there. Just think... thousands of people can be learning from you on their digital devices, while you are out travelling the world, spending time in nature, meditating, enjoying time with your family, or anything else you love.

SO... WHAT DOES ALL THIS MEAN FOR YOU?

THE TIME TO START YOUR AWAKENED BUSINESS IS NOW.

THE TIME TO JOIN THESE THRIVING INDUSTRIES IS NOW.

THE TIME TO INVEST IN YOUR FUTURE AND CREATE A MEANINGFUL CAREER IS NOW.

How many people do you know who have great university degrees, yet aren't doing meaningful work. How many people do you know who are stuck in a soul-sucking job that drains them? It's time to say goodbye to that old paradigm, for good.

Awakened Academy teaches you how to create your own meaningful coaching, book and online course business. Not only do you get to do meaningful work that you love, but you also empower yourself and your future. Through creating your own career, you will be 100% in charge of your financial future - instead of some boss or company.

You can achieve freedom in your life while doing meaningful work that inspires you, and makes a deep transformative impact on your customers, clients and followers.

HOW CAN I USE THIS TRAINING IN MY REAL LIFE?

The possibilities are endless. Here are some of the many ways you can use your Spiritual Life Coach Certification and Sacred Business education:

- You can create a virtual business working with clients internationally through coaching and/or creating online audio/video courses, and enjoy the ease of earning an income from anywhere in the world
- Own or work in your own wellness center or consultation office
- Teach small groups, lead retreats in beautiful locations
- Expand your already existing practice to be more efficient, profitable and meaningful, with less time and energy on your part
- Leave a draining, dead-end job, and embark on a whole new professional journey
- Become a best-selling author and create a successful book business
- Create video or audio courses that inspire, educate and enlighten your audience
- Build a great online presence, reaching thousands of people all over the world with your message
- And so much more...

WHERE CAN I WORK?

Your freedom-based life

One of the huge blessings of being a spiritual life coach, author or online course facilitator, is that you can work from anywhere in the world, from the comfort of your own home (or hotel, ocean view seat, airplane etc.)

There is great freedom in this line of work, in the creative digital age we are in.

Many of our clients work with people over the phone or skype, which means you can 'see' clients from all over the world. Some of our clients work with clients in person in a local office, and some even out of their homes. Some go on to work with larger corporations or wellness centers, contributing their unique gifts and support where they feel most inspired and called.

BE AT THE LEADING EDGE OF TRANSFORMATION

When coaches focus only on a client's surface challenges and desires without getting to the root causes of these concerns, the same challenges and emotions will tend to present themselves again and again... until the message is received. Plus, if the client's coaching goals and desires aren't genuine, it will only lead the client to suffering.

At Awakened Academy, we empower you to support your clients in making **real, deep** changes and being in touch with their authentic desires and truth.

If your goal is to help people at the core level, and know in your heart you're doing meaningful work, while making a great income, then this training is for you.

FOUR REASONS WE ARE DIFFERENT

Our Unique, Spiritually-Based Approach To Real Life & Business Success

We believe it's time to shake things up and bring something new and fresh to the world. We're different for many reasons - here are just a few.

#1 We love you & we really care

We believe in you! Supporting you, the spiritual, empathic soul, is our heart's joy and unique soul purpose. We love you. We've dedicated our lives to being of service in the deepest way possible and we're here for you.

#2 We teach you everything you need: Learn How to Become a High-Paid Coach, Author, Teacher, Speaker and Course Facilitator

We know you're creative and dynamic. That's why we teach you how to share your gifts in **several** ways - as a high-paid coach, teacher, speaker, author and/or course facilitator. With Awakened Academy, you can finally express yourself in various ways suited to YOU and help your clients transform their lives and create real, lasting results - thanks to your products and services.

#3 We teach you Business Success Systems based on Empowerment Marketing (not lack)

We empower you to create a heart-based, sacred business where you share your unique gifts and make a difference in a deep, meaningful way (without selling out). Our clients tell us how relieved they are to finally find a new way of making a difference that's not based on the old model of deceptive marketing and business strategy that, quite frankly, doesn't work anymore. We show you how to be original. We teach you the new way of marketing that is based on empowerment, love and meaningful connection. You won't ever feel you have to 'sell' your services again, but rather, you'll feel a deeply rewarding connection with your audience everytime you offer them your valuable services. We equip you with the most leading-edge and unique coaching, writing and product-creation skills we know of (and we've been to many conferences and spent tens of thousands on all of the best information products out there to stay at the top of our field - so we know what else is available!) We give you the tools to support real, lasting transformation in your clients, while becoming the highest version of yourself.

#4 Become a Thought Leader in Your Industry While Remaining Authentic

By the time you've completed Awakened Academy, our aim is for you to become a thought-leader who goes on to create wonderful transformation in the world, while fully loving your life and being 100% true to yourself.

WHAT SETS AWAKENED ACADEMY APART FROM OTHER SCHOOLS?

We're not here for everyone. **We are here for spiritually-minded people who want to create meaningful work in the world, make a profound difference and receive a great living doing it.**

Not everyone values living a spiritual life. That's totally ok, and there are countless business, coaching, marketing and personal development courses around that are void of the spiritual aspect of life.

However, there are zero Academies that truly value spiritual life at the core, and are here to support a new generation of Awakened Leaders. Leaders who lead from a place of inner truth. This is who we're here for - and this is what we care about. We care about you, the empathic, spiritual soul.

We are unique in that we bring all of these essential aspects - spiritual coaching certification, author and online course creator training, real spirituality and higher consciousness, life-changing personal development and empowered business and marketing training - **all together in ONE place**, for the emerging Awakened Leader.

That's why Awakened Academy was born - we recognized a need to empower deep, empathic souls to grow spiritually while awakening their higher purpose and systematically setting up their own virtual impact and income machine (online business) to deliver their message to the world. It needed to be done - so we did it - and we're deeply happy we did. It's our joy and honor to watch you step into your light, power and wealth.

AWAKENED ACADEMY IS A DIVERSE WORLD FAMILY

We are a diverse world family at Awakened Academy, with students from all over the world, from different cultures, backgrounds, spiritual and religious paths and origins. We celebrate coming together as a family of souls - divine beings here to be of service in this world. All races, genders, religions, and backgrounds are celebrated here. We all come together in unity and oneness, to serve and create our most elevated lives.

Each of us has a unique Dharma, a sacred purpose on this planet. All of your life experience up until this point has prepared you for your service in the world. Even every challenge and "mistake" has been purposeful, and when you begin to realize the perfection of life's unfolding, you will see how the wisdom you've gained along your journey will be of invaluable support to your coaching clients.

You are here for a reason, and we believe you are reading this for a reason.

Thank you for your divine presence! We welcome your beautiful uniqueness to this Academy experience; together, we are all like a beautiful bouquet of flowers, each with our own fragrance and speciality.

WHO IS THIS ACADEMY FOR?

"I know I'm destined for a career helping and serving others, I've been through a lot of struggles and feel by sharing, I will help others with similar struggles."

"I would love a successful career with freedom and flexibility to decide my own hours and work on my own schedule."

"I am inspired to uplift others in a way that is truly magical and takes people out of their comfort zone and into something special, unique and unmatched that changes lives."

**Be Supported in the *Long-Term* with a
Spiritual Program, Expert Teachers
and Community who Cares**

Most (maybe all) Courses have a period where you receive some support, followed by basically being “cut off.” Companies expect you to keep buying more to receive contact and support from teachers. This leaves students feeling alone, stuck and confused.

We do things differently here at Awakened Academy.

We are here for you for the long-term. We continue to support our students years into the future – well after they’ve completed their Certification with us.

You can keep asking us questions and receiving personalized answers on the Live Calls and you receive Lifetime Access to the Course material.

We want you to succeed, and we’re committed to helping you thrive. We’re here for you, now and in the future.

Frequently Asked Questions

How do I know if Spiritual Life Coaching is right for me?

Life coaching is one of the most fulfilling careers in the world. Who wouldn't want to get paid to expand their own personal and spiritual growth, while helping others do the same? Some students wonder if they will actually be able to make a living doing it. We used to think that way too. It turns out, for us and our students, you can make a full-time income as a coach. Plus, the Awakened Academy gives you the added support of creating multiple income streams - so you can make money writing and selling books and selling courses. We've been working for ourselves and living abundantly for many years. We know you can too.

How long will it take me to complete the Certification Academy?

The Academy is designed to be completed in around 6-18 months, depending on the Course path you choose, and your personal schedule. Upon graduation you will be given a certificate of completion and certification, and a beautiful seal for your website to display your credentials!

Is the Academy self-paced??

Yes! Awakened Academy is self-paced, and therefore aligns with your lifestyle and flow.

Do you offer payment plans?

Absolutely. We offer payment plans. We're here to make it work for you.

Do I have access to Michael and Arielle?

Yes! You will have access to two sacred coaching calls a month with Michael and Arielle, to ask your questions, receive deep insights and feedback, and hear how they intuitively coach others on the call. You will also receive a 1-on-1 personal coaching session with each of them. In addition, you can ask a question at any time and receive an answer.

Will I receive support?

Yes! Supporting you is the most meaningful part of this work to us. We love you - you are family to us - we're here to help - always. It is our top priority to ensure you are incredibly successful! We offer check-in and accountability calls to help you along your journey, in addition to the life-changing material and live calls.

Can I do this program while working a full-time job or being a full-time parent?

YES! We have had many full-time workers, students and parents complete Awakened Academy. What you will learn in the Academy is how to simplify your life and create new habits that give you back time and energy. You'll discover how to create a more spacious life, while helping your clients do the same - less stress and more fun.

I'm already a coach, will this be repetitive?

No, not at all. This is a one-of-a-kind training that will enhance your current practice beyond measure. You'll finally be able to go even deeper with your clients, to the roots of their problems. You'll be empowered to bring a spiritual foundation to your sessions, so you can serve each client as a special soul, not just another "person."

Does Awakened Academy Come With A Guarantee?

Yes! We know that this training is powerful and can change your life and we're willing to stand behind it. If you go through the entire program, and apply everything you learn as directed - and you don't see any improvements in your life and business in any way - we will give you your investment back.

It is our top priority to ensure each of our students is incredibly successful - and that you create abundant wealth, joy, service and freedom in your life.

Our heartfelt aim is this:

May you serve millions of souls, be financially free and live your best life ever. Amen.

A woman with dark hair is shown from the chest up, blowing a dandelion seed head. Her eyes are closed, and she has a peaceful expression. The dandelion seeds are captured in mid-air, creating a soft, ethereal glow. The background is a dense field of autumn leaves in shades of orange, yellow, and red, with some green leaves visible on the right side. The lighting is warm and golden, suggesting a late afternoon or early morning setting. The overall mood is serene and romantic.
